ASPHALT PLANT DIVISION

1. ASPHALT PLANT (YANKUL ROAD) - IBRI

GENERAL INFORMATION

PLANT 1

- Plant Name: Parker Black Serious 5
- Location: Yankul, Al Drees Road
- Production Capacity: 60 Tons per Hour (TPH)
- Bitumen Storage Capacity: 100 Tons
- Diesel Capacity: 40,000 Liters
- Aggregate Storage: More than 2,000 Tons
- Daily Supply Capacity: Up to 500 Tons per Day

PLANT 2

- Plant Name: Speco
- Location: Yankul, Ibri
- Production Capacity: 120 Tons per Hour (TPH)
- Bitumen Storage Capacity: 100 Tons
- Diesel Capacity: 40,000 Liters
- Aggregate Storage: More than 2,000 Tons
- Daily Supply Capacity: Up to 1500 Tons per Day

PRODUCTS MANUFACTURED

- Bituminous Base Course (BBC Class A & B)
- Bituminous Wearing Course (BWC Class A & B)

ADVANTAGES

- Fast installation
- Easy transportation
- High production efficiency
- Low operating costs
- Reliable asphalt quality
- Suitable for remote construction sites

2. ASPHALT PLANT (SUR INDUSTRIAL - MADAYN) - SUR

GENERAL INFORMATION

- Plant Name: SPECO (2007/08 Model TS AP-1500 FFW)
- Location: Al Aqd, Sur Industrial Area
- Production Capacity: 120 Tons per Hour (TPH)
- Bitumen Storage Capacity: 250 Metric Tons
- Diesel Storage Capacity: 40,000 Liters
- Aggregate Storage: More than 2,000 Tons
- Daily Supply Capacity: Up to 1500 Tons per Day

APPLICATIONS

This plant supports:

- Municipal road construction
- Road rehabilitation projects
- Commercial developments
- Residential infrastructure
- Industrial road networks

3. ASPHALT PLANT (NEAR OMAN CEMENT FACTORY) - MISFAH

GENERAL INFORMATION

- Location: Misfah
- Plant Name: Amman SIM Brand
- Serial Number: 14510
- Production Capacity: 100 Tons per Hour (TPH)
- Bitumen Storage Capacity: 100 Tons
- Diesel Capacity: 40,000 Liters
- Aggregate Storage: More than 2,000 Tons
- Daily Supply Capacity: Up to 1200 Tons per Day

COMMITMENT TO QUALITY

All asphalt plants are equipped to produce high-quality asphalt mixtures using carefully controlled production processes. Regular maintenance, strict quality control procedures, and experienced operational teams ensure consistent product performance and compliance with project specifications.

With production capacities ranging from 60 TPH to 120 TPH, extensive storage facilities, and strategically located plants across Oman, we deliver reliable, durable, and cost-effective asphalt solutions.
